

Kitchen Furniture & Appliances Pack

Technical Details

Asset Count

- 28 Unique Assets
 - Modular kitchen system included (Cabinets, Counters, and Appliances)
 - Fully configured Prefabs included
 - Demo Scene included to showcase kitchen layout
-

Included Assets

Cabinets & Counters

- Base Cabinet (Standard)
- Base Cabinet (Corner - L-shaped)
- Upper Cabinet (Wall-mounted)
- Upper Cabinet (Corner)
- Countertop (Straight Section)
- Countertop (L-shaped Corner)
- Kitchen Island

Major Appliances

- Refrigerator (Two-Door)
- Stove / Range (4-burner with Oven)
- Sink (Under-mount with Faucet)
- Dishwasher (Built-in)
- Microwave (Over-range)

Furniture

- Kitchen Table (Rectangular)
- Kitchen Chair (x4 – same design)
- Bar Stool (x2 – same design)

Small Props

- Cooking Pot with Lid
 - Frying Pan
 - Utensil Holder with Utensils
 - Cutting Board with Knife
 - Electric Kettle
 - Toaster
 - Coffee Maker
 - Fruit Bowl with Fruit
-

Polygon / Vertex Count

- All assets are optimized for performance and real-time rendering.

Small Props:

- 150 – 350 triangles

Medium Assets:

- 300 – 600 triangles

Large Assets:

- 600 – 1000 triangles

Total Pack Estimate:

- ~12,000 – 18,000 triangles

Optimized Geometry:

- Clean topology suitable for modular placement
 - Game-ready meshes optimized for Mobile, PC, and Console projects
-

Scale

- Real-world scale used throughout the pack
- 1 Unit = 1 Meter

Standard Dimensions:

- Counter Height: 0.9m
 - Table Height: 0.75m
 - Upper Cabinets Placement: ~1.4m above floor
-

Textures

- Stylized low-poly textures
- Format: PNG
- Clean color-based materials

Texture Style:

- Wood (light, medium, dark)
 - Metal (chrome, stainless steel)
 - Simple PBR-inspired look
-

Materials

- Materials are pre-configured and ready to use
- Optimized for performance and consistency

Material Types:

- Wood Materials (Cabinets, Furniture)
 - Metal Materials (Appliances, Handles)
 - Plastic Materials (Small appliances)
 - Glass Materials (Oven, Microwave, Coffee Maker)
 - All materials are properly assigned to prefabs
-

Prefabs

- All models are available as ready-to-use prefabs inside:
- Assets/Prefabs/

Each prefab features:

- Correct real-world scale
 - Proper pivot placement
 - Clean hierarchy
 - Pre-assigned materials
-

Pivot Points

- Base Cabinets: Bottom center
 - Upper Cabinets: Back center (for wall mounting)
 - Appliances: Bottom center
 - Countertops: Bottom back edge
 - Small Props: Bottom center
-

Performance

- Lightweight and optimized for real-time performance
 - Mobile-friendly asset design
 - Suitable for simulation, interior design, and stylized games
 - Efficient draw calls using optimized geometry
-

Scene Included

- Kitchen demo scene included
- Demonstrates modular placement of cabinets and appliances
- Shows realistic kitchen layout composition
